ReactJs | NextJs | MERN | Tailwind | Bootstrap | CSS | HTML | JavaScript | Nodejs | GitHub | Express | MongoDB | SQL | Redux | Axios | Stripe | C | Java | Python | JavaScript | Front Development | Backend Development | Full Stack Development | Primsa | Material UI | Redux-ToolKit | Mongoose | JQuery | Auth0 | FireBase | SCSS | JWT Token |

PROJECTS

E-commerce Website   GitHub | Live Demo
- Developed a NodeJS application that seamlessly synchronizes highlights captured on a Kindle e-reader with Notion, my preferred productivity management app.
- Implemented an efficient incremental sync mechanism, eliminating the need for re-syncing old highlights.
- Containerized the application using Docker and established a CICD

NextJs Pizza ordering website   GitHub | Live Demo
- Developed a NodeJS application to parse and convert Obsidian notes to MkDocs markdown format.

- Built a CICD pipeline using GitHub Actions to publish the notes as a static website e
  very time
- Built a CICD pipeline using GitHub Actions to publish the notes as a static website every time

MovieDB website   GitHub | Live Demo
- Developed a NodeJS application to parse and convert Obsidian notes to MkDocs markdown format.
- Built a CICD pipeline using GitHub Actions to publish the notes as a static website every time
- Built a CICD pipeline using GitHub Actions to publish the notes as a
  static website every time

Internship

Android APP Development | EasyShiksha Ed Platform   22/06/2023 – 23/07/2023
- Developed a NodeJS application that seamlessly synchronizes highlights captured on a Kindle e-reader with Notion, my preferred productivity management app.
- Implemented an efficient incremental sync mechanism, eliminating the need for re-syncing old highlights.
- Containerized the application using Docker and established a CICD

Full Stack Web Development | Priston Smart Engineers Pvt Ltd   22/05/2023 –23/06/2023

- Developed a NodeJS application that seamlessly synchronizes highlights captured on a Kindle e-reader with Notion, my preferred productivity management app.
- Implemented an efficient incremental sync mechanism, eliminating the need for re-syncing old highlights.
- Containerized the application using Docker and established a CICD
